Faculty Advising in Ecology and Evolutionary Biology

All students are required to meet with a faculty advisor. Faculty advisors serve as mentors in your major, recommend courses, and help you refine your educational goals. Faculty advisors are professors who have in-depth knowledge about subject matter and opportunities in the field. Faculty are an excellent source of information when it comes to considering possibilities such as research opportunities and graduate school.

When choosing a faculty advisor we recommend you visit the faculty list on the Ecology and Evolutionary Biology website (http://undergrad.pbsci.ucsc.edu/eeb/faculty-advising/index.html) and read the biographies.

You can choose a faculty advisor based on the type of research they are involved in, the courses they teach, or because you have had a class with the professor already. After you choose an advisor, you can either attend their office hours or make an appointment with them (office hours and contact information can be found here: http://www.eeb.ucsc.edu/faculty/index.html).

Please choose your faculty advisor from the following list:

- Suzanne Alonzo
- Mark Carr
- Don Carr
- Laurel Fox
- Marm Kilpatrick
- Bruce Lyon
- Eric Palkovacs
- Jarmila Pitterman
- Donald Potts
- Beth Shapiro
- John Thompson
- Giacomo Bernardi
- Don Costa
- Jim Estes
- Kathleen Kay
- Kristy Kroeker
- Rita Mehta
- Ingrid Parker
- Grant Pogson
- Peter Raimondi
- Barry Sinervo
- Terrie Williams

To prepare for your advising meeting, review your academic plan, major checklist (http://undergrad.pbsci.ucsc.edu/eeb/ecevbs/ecevbs-requirements.html). Read the catalog descriptions of courses you might be interested in taking. Reflect on why you chose the major and what interests you about the field of Ecology and Evolutionary Biology. Consider graduate programs and/or careers you are interested in. Be sure to bring a copy of your academic plan and transcript to the meeting.

Please have your faculty advisor sign and date this form. After it has been signed, you must submit it to Physical and Biological Sciences Undergraduate Affairs.

Student Name: ________________________________ Student ID #: __________

Faculty Member Name: ____________________________________________

Faculty Member Signature: __________________________________________________________________________ Date: __________

Return this signed form to the Physical and Biological Sciences Undergraduate Affairs Office drop box outside 142 Jack Baskin Engineering Bldg or scan and email to biologyadvising@ucsc.edu.
